The Craftsman John

Leather Bifold Wallet Template

Hey.

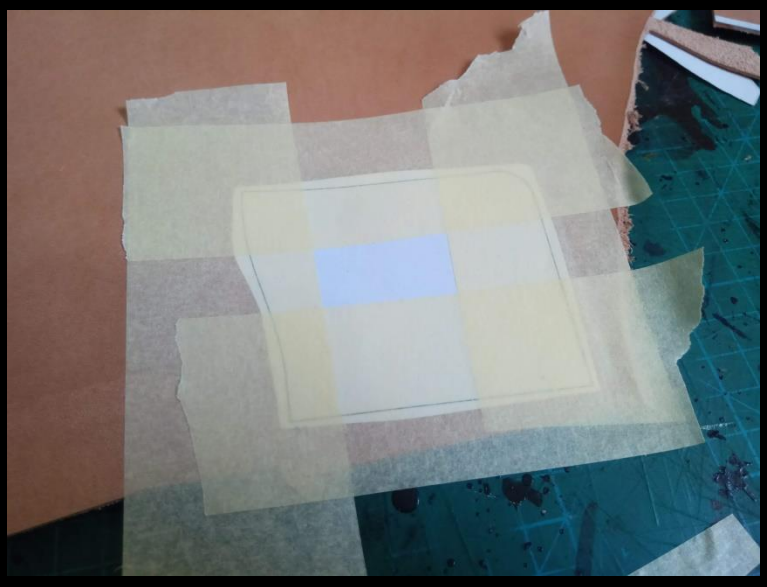
Thank you for purchasing my product. This is a digital pattern that will help you create your own leather product.

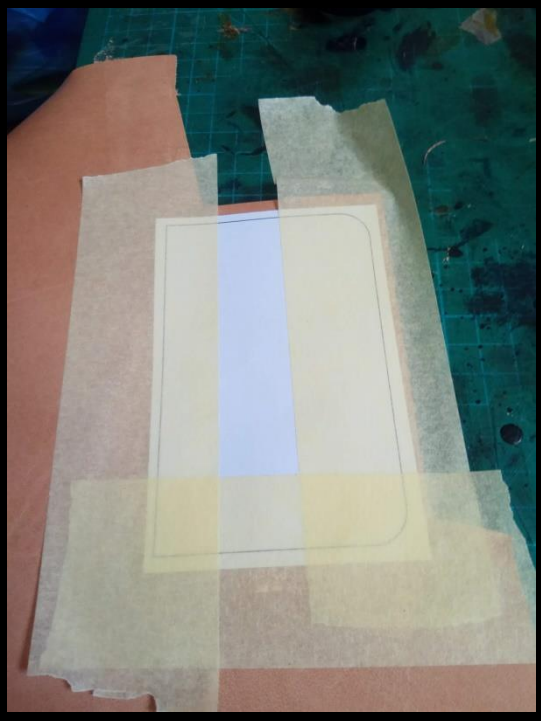
Let's get to work!

- Before printing the correct pattern, please print the page with the test dimension to check if everything is ok.(print on A4 paper 1: 1 - 100%.)

- In this project I used a 1,2 mm thick leather.

- Below are photos from the process of cutting out subsequent parts of the project (photos for example)





-After cutting out all the parts for a given project, you can proceed to further work such as painting, gluing, sewing and of course finishing.
-If you have any questions or problems, please contact me. I will try to get rid of it as soon as possible.
-If you are happy with your purchase, please give me a positive review in my Etsy store and comment if everything has met your expectations.

Good luck!
